

**VEHICLE INFORMATION/TEST SPECIFICATIONS
FMVSS 104
PASSENGER CARS**

1. Provide two (2) full size reproduced copies of the actual windshield patterns showing areas A, B and C established as shown in Figures 1 and 2 in SAE Recommended Practice J903a dated May 1966, using angles specified in columns 3 through 6 of Tables I, II, III or IV as applicable as shown in FMVSS 104.

2. State the total surface area and exposed windshield surface area of each.

3. Provide the parked location dimension of the wiper blades with respect to the bottom of the windshield.

4. Provide the wiper speed utilized to produce effective wiper pattern.

VEHICLE INFORMATION/TEST SPECIFICATIONS
FMVSS 104
VEHICLES OTHER THAN PASSENGER CARS

1. Provide two (2) full size reproduced copies of the actual windshield wiping pattern for both the driver and passenger sides as required by FMVSS 104.

2. State the total surface area of the wiping pattern.

3. Provide the dimension, with respect to the bottom of the windshield, of the parked wiper blades location.

4. State the wiper speed utilized for the effective wipe pattern.
